

MIKADO'S REALM FACING WAR CRISIS

Where War Hovers Over Far East

Nation Mobilized In Struggle Over Chinese Empire

Events of the world centred on darkening war clouds in the Far East as Japanese and Chinese armies were rushed toward Peking. Last night Chinese soldiers sped northward to the battle area, the Kwantung Army, Japan's ally, had already crossed the border into Manchuria. The Chinese, under Shanhakwan, for movement by truck to Fengtai and Peking. Warning Japan that this attack endangered peace in eastern Asia, China's Prime Minister Wang Chang Hui left demands reparations and punishment of Japanese military officers.

Bond Registering Plan Mystifies Holders Counsel

Protective Committee Says If Premier Is Sincere, All He Has To Do Is Go Ahead and Discharge Obligation

Declaring that at present nothing is known of the government purpose for registering Alberta securities and that investors generally are fearful of this unknown plan, the Protective Committee of holders of Alberta bonds and savings certificates for Northern Alberta at a meeting held Wednesday decided to withhold information.

FINAL POWER OFFER GIVEN CITY COUNCIL

Attractive Offer for Standard Service Made by Calgary Power Firm

Making by far the most attractive power offer yet made to the city from any source and pointing out that the offer is "a gesture of good will," the Calgary Power Co. Ltd., is to give the city a standby service and insure an uninterrupted supply of power to power users in Edmonton and Lethbridge without interfering with the development of the city's own power plant and does not affect the power or labor situation in any way. R. Bruce Baxter, vice-president of the company, said it is still open for consideration at special meeting of council on Thursday afternoon.

Briefly Mr. Baxter summarizes his proposals as follows:

"For the purpose of consolidating and streamlining our offer to you made in my previous letters and at the meeting we had, I write to advise you—

1.—The offer of the Calgary Power Co. Ltd. does not in any way prevent or interfere with the city proceeding with the construction of its steam plant and does not affect the coal or labor situation."

2.—The city is in need of a standby power plant at any time would be serious.

3.—The arrangements proposed will be carried out to the city at no time, one month's notice, but the company must give two years' or longer notice of its intention to cancel.

4.—The service is offered for only half the month, which is only half the cost of power to the city on the \$1,000,000 expenditure proposed by the city for equipment which will be required to create a total power plant and a standby system that can be relied upon.

5.—The company is quite prepared to take over the power from the city at any time supplied by the company during a breakdown.

6.—The company is prepared to take over the power from the city at any time supplied by the company during a breakdown.

Fumes Overcome Twelve Firemen

OTTAWA, July 22.—Ammonia and chemical fumes from a small fire in a perfumery shop here yesterday evening caused twelve firemen to be overcome. They will be revived by pulmonary treat-

ment.

In the following dispatch, James A. Millar, veteran Associated Press reporter, analyzes the Sino-Japanese crisis from the background of his long experience in Asia and its aims for expansion on the continent of Asia.—EDITOR.

BY JAMES A. MILLAR
IN THE JAPANESE CAPITAL
TOKYO, July 22.—On the eve of the 17th special session of her parliament which opens tomorrow Japan finds herself facing greatest crisis in her history. The outcome may determine the destiny of the empire, the fate of China and the future of Eastern Asia.

The mobilization of 100,000,000 people and all the might of the empire are mobilized for a struggle against China. Within the last 10 days Japanese forces rushed thousands of reinforcements to China and is preparing to dispatch thousands more if necessary.

It is generally agreed yesterday's prompt up-against China was taken by both Japanese officials in North China and the Japanese regional army which does not preclude further serious events.

The truce called for the withdrawal of Japanese troops from Peiping and the area west of the city where they have been skirmishing with Chinese forces since July 7. The central Chinese government at Nanking has already rejected the truce.

In no way does this agreement affect the gravest national issue before the Japanese and their governments. It was chiefly for the purpose of forcing a settlement of the dispute between the two countries, observers declared, that the Japanese government sent a large naval force and many units to China.

In China waters those units already have reached the area and others are

POLICE SLAYER KILLED: AIDE IS MORTALLY HURT

Murder of Sudbury Officer Avenged in Running Gun Battle

EDMONTON, July 22.—Victor Styrnowski, wanted by the running of Sergeant Fred Davidson of the Sudbury police force, was shot and killed by police in a running gun battle that ended in Canadian Pacific Railway car three blocks west of Nairn Street early today.

Tom Shoke, also sought in connection with the killing, was wounded and taken into custody.

Challenged by police as they headed into the foggy murk of the rock cut just as dawn broke, the heavily armed匪徒 opened fire with machine guns. Battered behind falling rocks, four officers shuttled between the two sides of the cut.

Alleged failure of the Japanese to carry out their part of the agreement to withdraw from Manchuria caused the Chinese evacuation to halted abruptly.

The Chinese were not only said to have refused to abandon the post of the Japanese in Manchuria, but highway bridges and the railroad tracks across the Yungting River were dynamited.

Yesterday between local Chinese and Japanese military authorities was thought to have ended.

Shoke, pulling an automatic revolver, charged through the railway tracks and attempted to put up a battle. He fired back over his shoulder.

A heavy haevack protected his head and bullets that went through his body did not penetrate his skin. He fell from a rock between the two sides.

Challenged by police as they headed into the foggy murk of the rock cut just as dawn broke, the heavily armed匪徒 opened fire with machine guns. Battered behind falling rocks, four officers shuttled between the two sides of the cut.

Shoke, pulling an automatic revolver, charged through the railway tracks and attempted to put up a battle. He fired back over his shoulder.

Rushed to hospital, Shoke was believed dying as doctors struggled to save his life. If he survives he will face a murder charge, sworn

U. S. Officials Flying Here To Check Airports

Sweeping Law Governs Coast Eating Places

Vancouver and Other Cities Adopt Stringent Regulations Covering Premises, Utensils, Ventilation and Employees

VCANCOUVER, B.C., July 22.—Stated by health officers of provincial, dominion and civic administrations to be one of the best pieces of legislation of its kind yet placed on the books of any municipality in Canada or the United States, the new law relating to restaurants and eating houses which went into effect here at the beginning of May has already proved its worth, it is said, and has resulted in greatly improved conditions in all restaurants in Vancouver.

The by-law, which covers all restaurants, eating houses, lunch counters, tea rooms, coffee shops and delicatessens, is being rigidly enforced which in itself is one of the main causes of its success, according to Dr. W. G. McLean, health inspector.

Under the provisions inspectors can enter restaurants at any time with or without notice, have access to all parts of the premises and can inspect and take samples of any food stuffs found there.

STRONG REGULATIONS

Regulations for ventilation, lighting, waste disposal and other matters are contained in the by-law which says that all restaurants shall be constructed so as to exclude flies and other insects from the interior, and that walls and ceilings of kitchens must be smooth, finished and repainted as often as food inspection requires.

Eating places not allowed in the office space of business blocks except on the top floor and which must not be less than 40 square feet, while lunch counters, coffee shops and delicatessens must be at least 100 square feet.

Government and business offices from Bute, Helena and Great Slave Lake, Mont., will also be in the party.

While here the aviation leaders will inspect the Edmonton airport and the city, and the airport at South Cooking Lake, and local airmen state they are certain Col. John E. Ayers, director of air force training, will be here.

OTTAWA MAKES NEWS ROUNDUP ON DRY AREAS

CROP LIKELY TO BE ABOUT THIRD NORMAL

Alberta Better Off Than Large Areas of Other Provinces

OTTAWA, July 22.—Canada's prairie provinces which in 1929 produced \$44,000,000 bushels of wheat, made this year produce less than \$20,000,000. The figures, which estimates range as low as \$10,000,000, and the reason is drought.

For seven successive years vast areas of western Canada with some Saskatchewan, Alberta, and Manitoba have suffered, and in that province particularly a broad strip of territory just west of the 100th meridian. Since boundary has reverted to desert. Throughout the west more than 1,000,000 people are now either dead, and Indians are those that year close to 400,000 persons would help end in the way of "drought death."

MEANT LOSS DEAD

What this means in monetary loss to the Canadian west was indicated today by Sir Arthur Gardner. He cited figures he had given some time ago in the House of Commons, which showed that while the three good years from 1926 to 1928 inclusive yielded the prairie provinces a total of \$100,000,000, the next three from 1929 to 1931 produced revenue of only \$35,000,000, and the last two bad years at that time of \$60,000,000.

This loss has never been recovered. Yet this year, in the first few days of June 1938 when the prairie crop topped the half-million bushel mark, the total production was only 161,000 bushels; but in the following month it was down to 40,000,000 bushels. The recovery has maintained. The year 1932 saw another sharp drop in production. And since then the trend has been steady. Last year production totalled only 212,000,000 bushels.

Variations had occurred in the general drought picture from year to year, said Gardner.

CALGARY OUT

The dry area last year embraced Calgary and a portion of south-west Alberta, he declared. "This year Calgary is out, but the drought around Lethbridge will have a fair crop. But while there has been a considerable increase there has been an expansion in Saskatchewan, Regina and Saskatoon were last year the driest areas. And since then they are the ones that have steady. Last year production totalled only 212,000,000 bushels."

Continued from Page One
LONDON, July 22.—The House of Commons agreed early today to postpone consideration of a bill which would defer execution of the government's plan to partition Palestine.

NOT WORKABLE

Declaring the League of Nations mandate under which the British government had been placed to secure peaceful relations between the Jews and Arabs in the Holy Land was "not workable," Sir Archibald Sinclair, colonial secretary, William G. A. Ormsby-Gore, that the house agreed the British government should not proceed.

Meantime the House of Lords continued debate on the proposal to partition Palestine.

NOT WORKABLE

Morgan Jones introduced a Labor resolution asking that the new committee be given power to re-examine the partition scheme further. Jones called the plan a manner of subterfuge.

DUKE ACTIVE

Sir Archibald Sinclair, Liberal leader, said the royal commission's report was "not workable" and he had "sense of humor" for it.

DISTRESS NOT INDICATED

On the subject of whether the United States is threatened with revolution because it hasn't gone in for the Credit controls, the de-spooked Washington press says people of that country are spending far more money than they did last year for luxuries. Sharp increases are noted in sales of furs, whisky, toilet preparations, and other articles which can be done without, while Americans generally have been buying from twenty-five per cent more tickets during the months of this year.

Whatever this may indicate, it is not evidence of deepening and widening distress. People who are buying the luxuries, lip-stick, facial renovators, and the like, ticketed for amounts which may or may not be threatening to insure, but they plainly are not being driven to revolution by dire poverty. Since they didn't go into revolt when they were getting less of these luxuries, it is evident they are not very likely to try to upset the Government now that they are able to buy more of them.

A STAND-OFF

Winnipeg's financial difficulties have been met by the usual method—postponement. For the time the provincial Government will wait for the incomingайл grade the city. Not from money supplied by the Dominion treasury, since Premier Bracken said the province could give no more than it has been given. And when the legislature meets, the city is to be given "safe" credit, so that it can have a larger share of relief in such manner as it chooses."

The meaning of this, in plain language, is that the city is to be given power to withhold payments to its sinking fund and use the money to meet its other debts—such as the public works in the city. Vancouver must find itself with a \$10,000,000 shortage in its sinking fund. The city, that is to say, can run up a deficit with the bondholders, instead of at the bank.

This arrangement will probably be satisfactory to the city and to the Dominion, which leaves Winnipeg's burden right where it is. That will be satisfactory to the taxpayers of the city, or will solve the problem of enabling the city to pay costs it cannot pay and should not have to pay, are matters of less certainty.

OUR ROADS

Once again the years-old argument is waging as to whether Alberta newspapers should keep quiet about the conditions of the roads or tell their readers what the roads are like. Describing the roads, it is suggested, does not help to bring in tourists from the United States and other provinces. Which in itself is a proclamation that the roads are not good.

Neither over-publicity nor too much silence is to blame for that. The papers have tried both, and they naturally and properly look to the newspapers to tell them. As for tourist traffic, the idea that a "hush-hush" policy can substitute for good roads is a delusion. For the reasons mentioned, it is not good to advertise numbers of road conditions are unknown.

There are too many good roads in the United States for tourists in that country to swarm into Canada without knowing where they can get where they want to go or are likely to spend their time. And the same applies to us. We have had neither publicity nor silence has given us good roads. So far as road conditions are concerned the "honors" are easy.

There remains the other consideration. The public and the news media, with their columnists and others, and they naturally and properly look to the newspapers to tell them. As for tourist traffic, the idea that a "hush-hush" policy can substitute for good roads is a delusion. For the reasons mentioned, it is not good to advertise numbers of road conditions are unknown.

London—The Daily News reports that David Lloyd George, in view of the failure of the rail negotiations, offered to resign his office.

AGE OF PREMIERS

Marconi was born in Italy and died in Italy. But he belonged to the world. Science knows no national boundaries. Humanity is his debtor, in an amount that cannot be calculated. Who can put a price on the lives that have been saved by his invention? Who can estimate the saving in ships? And that is only one item in the bill of indebtedness. There is some satisfaction in knowing that a valuable a laborer did not go without due recognition.

Canada has shared in the achievements of Marconi as no other country. The Dominion Government staked him in his first effort to put his invention to use, built his masts and station at Gage Bay, and thus brought the first commercial wireless telegraphy into being. The scientific and business value of this sum of Italy was an adopted son of Canada. Canadians may therefore feel that they have an intangible vested interest in his work and what it means and will mean to the world.

THE CONFERENCE

No doubt some Canadians are disappointed because the Imperial conference did not produce a grand scheme of Empire defence, or the "imperial zollverein" the father of Premier Chamberlain used to talk about. There have been suggestions that because the conference did not end in a declaration that of course it did not do that.

In his broadcast, Prime Minister King pointed out that the conference could not do either of these things, or take any other action except subject to ratification by all the parliaments in the Empire. The body. The delegations were asked to explain their views and make "gentlemen's agreements" to propose certain lines of policy to the parliaments they represented.

Subject to this limitation of authority the delegations had a wide understanding on several matters of prime importance.

They agreed that the armaments of their respective countries will not be used for purposes of aggression or in a way contrary to the covenant of the League of Nations.

They agreed to the separation of the covenants and the League from the peace treaties.

They welcomed agreements between Empire countries and other nations in respect to regional interests.

They went on record as favoring as wide a range of general disarmament as can be obtained.

They recognized the duty of each Dominion to measure for its own security and the carrying out of international obligations.

They agreed to international information as to how the defence forces of each Dominion could be best developed to secure its own safety and that of the Commonwealth.

What these agreements will amount to must depend on the attitude of the Empire parliaments to the peace treaties.

It is not clear whether the policies involved shall be implemented. Along all these lines the conference gave a lead, which was all it could do.

From the Files of the Edmonton Bulletin

Qu'Appelle—On Saturday as the Prince Albert stage was proceeding north about five miles east of Humboldt a man armed with a double-barreled shot gun suddenly appeared before the stage and told the driver to stop, pointing the gun at him. He was told the driver and F. E. Bell, the manager of the stage, held up their hands, and another passenger named Fidler to hold the horses. He then opened several small seats until he found the registered passenger letters, which he took and ordered the stage to proceed. It was then that he said that there was a gun in the pocket of a person who was to be paid off.

He was already in the rear of the stage when he was shot through the heart.

It is a fact that a poor herd of cattle

that are being bred according to eugenic laws than there is for a fine herd of cattle that are being bred according to the laws at all.

It is generally custom for shipowners to make extensive contracts which frequently run over two or three years, and it is only when cargo comes into the market that rates for separate cargoes are available.

WHEN MARRIAGE IS CRIME

We pride ourselves in Canada on the purity of our racial stock, on the strength of our heredity and on the virility of our people.

How long shall we be able to maintain this pride in a highly competitive world when our marriage laws are failing to meet those of other nations with whom we compete?

There is still hope for a poor herd of cattle

that are being bred according to eugenic laws than there is for a fine herd of cattle that are being bred according to the laws at all.

It is generally custom for shipowners to make extensive contracts which frequently run over two or three years, and it is only when cargo comes into the market that rates for separate cargoes are available.

THE HONORABLE CLARK

While the new affidavits of health from foreign countries are not yet in

hand, the Board of Trade has decided to

allow the importation of cattle from the United States.

Five states have laws pending that will

make marriage a criminal offense or an examination.

One state forbids the marriage of drunkards, criminals, epileptics, imbeciles, insane and tubercular people.

Still another state imposes a term of two years' imprisonment on those who marry, knowing them to be tubercular.

There is already a law in India which forbids the marriage of persons who have

been declared incurable.

Five states have laws pending that will

make marriage a criminal offense or an examination.

One state forbids the marriage of drunkards,

criminals, epileptics, imbeciles, insane and

tubercular people.

Two states require an examination of both male and female.

The states require an affidavit of health from foreign countries.

Seven states require an affidavit from a physician that the marrying couple are free of disease.

ALBERTA C. N. CHIEF DEDICATES HISTORIC CAIRN

MAYERTHORPE EN FETE FOR CEREMONIES

Walter C. Owens Officiates
At Colorful Legion
Celebration

Special to The Bulletin
MAYERTHORPE, July 22.—This municipal town was decked out yesterday with civic, commercial and church dignitaries present to witness the unveiling of the cairn built from stones gathered by the Canadian Legions. Majesties King George and Queen Elizabeth were by Mr. Walter C. Owens, general secretary of the Canadian Legion district, for the Canadian National Legion.

Mr. Owens explained that he appeared for S. J. Hungerford president of the Legion, who had regretted his inability to be present. The cairn was draped in flags and streamers and was set up at the Canadian Legion, under whose auspices it had been erected.

In his address, Mr. Owens said: "I am very anxious to whom these stones will go, and your names but living personalities. A large number of them fell in the armistice in the Great War, and knew our present sovereign, his parents and his wife."

There has been brought stones from the birthplace of both King George and Queen Elizabeth, the cairn which it is my very pleasant duty to dedicate to your service and to the memory of those who have been the envy of usurpers and traitors."

I have tried to tell you something of the past of these stones. What will you see and hear in the future? I hope that you will see a country come under the heel of a tyrant and never be the rostrum of a traitor, a despot or a tyrant. I hope to see a progressive, liberty-loving people.

If they are a reminder of our past, let us hope that they will be an inspiration to that greater future that is essentially Canadian. Let us hope that the crown may their throne, founded on righteousness, last as long as will these emblems of the elements."

Over centuries generations they have seen the building up of that great empire of which we are a part, and which stands either on the rocks of Justice and Freedom, the art and as imperious as the free spirit, or else on the men of the world before the kingdom were united under the leadership of the elements."

But, like all other great political significance, they also exhale the romance and the poetry of the lands where they were born. They must have been such as these that the immortal Shakespeare looked upon when he wrote in "Midsummer Night's Dream"—"sermons in stones, books in the running brooks, and good in every thing."

BE INSPIRATION

There is not a man or woman among us who, during the days ahead of periods of quiet meditation, will not look at these and exclaim, "How much more eloquent than I could preach! Perhaps at such times the fairies of the forest will whisper to you that these treasures relate to the aspirations of the elements."

They have come, some from that vale of pure English rusticity, of pastoral call at Sandringham. Nor do the stones from the storied walls of Glaston Castle in Forfarshire.

I wish to assure you all to tell you this for I'm certain there are many within sound of my voice who know very much more about

Eloquent

WALTER C. OWENS,

who yesterday dedicated cairn at Mayerthorpe in honor of the Canadian Legion.

Glaston Castle and Sandringham that I do.

I hope that you fathers and mothers of the young will always remember that the world has ever seen an empire founded on justice and equality, an empire free from usurpers and traitors.

INTIMATE HISTORY

Only in this way will they know the history of the nation that was the cradle of democracy and is now the摇篮 of the world. I hope that the world has ever seen an empire founded on justice and equality, an empire free from usurpers and traitors.

The cairn which it is my very pleasant duty to dedicate to your service and to the memory of those who have been the envy of usurpers and traitors."

I have tried to tell you something of the past of these stones. What will you see and hear in the future?

I hope that you will see a country come under the heel of a tyrant and never be the rostrum of a traitor, a despot or a tyrant. I hope to see a progressive, liberty-loving people.

If they are a reminder of our past, let us hope that they will be an inspiration to that greater future that is essentially Canadian. Let us hope that the crown may their throne, founded on righteousness, last as long as will these emblems of the elements."

On June 8 in the Edmonton Bulletin, Mr. Rodiger said: "I am sending George Rogers" and giving his address as the Yale hotel in Edmonton, instead of the name of the personal column of the classified ads he inserted one which read: "Wanted—A man to work in my money in wheat field and manage same no profit or high wages expected. Must be a man of good character and reliable. Will pay well. No objection to family. Apply box 76 Bulletin."

On June 10 in the same column:

"In the Mail Help West column using the same name and address he inserted an ad which read: "Gentleman, aged 30, single, wants to make a good home for himself, married, cooked and roast meat man, pie-baker, wishes to invent money if possible, wants to buy a house, restaurant, delicatessen, or other business, wants to meet a widow with some debts, he said he would pay her debts and settle her up."

Roediger May Have Planned To Defraud Stony Plain Family

Continued from Page One
her husband home to live. He will allow me to be his sister. He means all visitors to turn him away. "We have nothing to say," he says in his quiet, but firm, voice.

But from friends and business associates, who have known him well, he took a great interest in the personal affairs of his wife immediately after the marriage.

POWER OF ATTORNEY

One of his first acts was to obtain from her a power of attorney which gave him the right to handle her business matters touching her share in her father's estate.

He then caused to be demanded an immediate accounting of the property of the estate. He, as he succeeded in stopping a loan which was to be made to him, obtained from the Royal Canadian Mounties a warrant for Roediger's arrest, and the family which had accepted the offer of the lawyer, who had agreed to give him a free hearing, was shocked to learn that he was a bigamist, and a thief, an international swindler, and a man of the lowest form of marriage with at least nine women.

ARRIVED WITH WARRANT

First warning the family had that day was the arrival of the Royal Canadian Mounties, who had been sent by the warrant for Roediger's arrest, and the family which had accepted the offer of the lawyer, who had agreed to give him a free hearing, was shocked to learn that he was a bigamist, and a thief, an international swindler, and a man of the lowest form of marriage with at least nine women.

TRANSMITTED DEAD SIGN

Mrs. Phillipine Strasburger, the aged mother, had almost completed her sentence of life imprisonment when Roediger came to her with a 100-acre parcel of land in the Stony Plain area, and a power of attorney, and a warrant for his arrest.

It was the first time that Mrs. Strasburger had seen Roediger, who had been the envy of usurers and traitors.

ROLL OF BILLS

With his bill of bills that must have come under the heel of a tyrant and never be the rostrum of a traitor, a despot or a tyrant. I hope to see a progressive, liberty-loving people.

BEES FAIL TO HALT PAINTER BENT ON TAKING

SOOTY BEECHES

RODERICK DUNTON, 21, of the Royal Canadian Mounted Police, was captured yesterday morning at the end of a two-hour search for a man who had been seen near the Stony Plain area.

He had been seen near the Stony Plain area, and a power of attorney, and a warrant for his arrest.

Premier Asks Bank Aid For Social Credit

Letter Will Be Sent Pointing Out Responsibilities Of Finance Houses

Expediency of banking institutions co-operating with the government in incorporating Social Credit is being given serious consideration in a letter to be sent out by the government to the banks, according to Premier Wm. Aberhart.

In making an announcement the premier said:

"As a preliminary measure in preparation for the session of parliament on Aug. 3, I am sending upon the advice of the Social Credit Board, a letter to the banking institutions, notifying them of my intention and expediency of their co-operation in incorporating Social Credit."

LOWEST TAXES

"The object of living is to be low taxed, taxation must be quickly and reasonably removed."

The letter states that compel realization of these results a government must therefore see that all money available for the public thing in this way is regulated, is so ordered as to enable the people to enjoy the lowest taxes and need and can provide where, when and as they require it."

UP TO DATE

As the banks are operating within this province have in their hands a greater part of the responsibility of making Social Credit a reality, as prescribed by the people and as all institutions functioning within the province are now moving in the energetic toward the welfare of the people, it is fitting that in its letter, it is pointing to the bank's responsibilities connected with their privileges.

Copies of the letter were sent by Edmonton bank managers on Thursday morning and Calgary managers and others will receive it shortly.

One leading manager here while declining to reveal the text of the letter, said he understood the government intended to continue its activities toward paying the debts.

"I don't know what the government means when it asks for co-operation," he said. "The banks already are co-operating with the government in advancing \$1,600,000 for seed grain this year and a like amount was advanced last year."

DIRT ROADS IN BAD CONDITION FOLLOWING RAIN

Objection to All Service Being Given Through Prince Albert

Vowing strong disapproval of present arrangements whereby all mail to Goldfields, Yellowknife, Fort Smith and Fond Du Lac is sent via Prince Albert, a member of Commerce urged Thursday that a similar service be set up to facilitate better communication with northern mines.

LOW WATER TRENCHES RESUME

Low water is giving the rivermen plenty of trouble but as a result of having to lighter all freight and carrying it in smaller boats, it may be for about nine miles before it can be transferred to the river boats.

The Hirschauer portage scene at the mouth of the Yellowknife River under way with crews working day and night to get freight across the river, has been suspended because of extremely warm weather. There were all sorts of difficulties in getting the portage to be carried on to Calgarystown.

WEATHER WARM

Warming up. Clarmont has been warm with light showers and a good general rain is needed to fill the streams.

Wet snows at Sennett during the week and a light rain on Wednesday evening have caused some difficulties and prospects for a fair yield are improved over recent weeks.

CBC OFFICIAL TO GIVE HINTS IN ANNOUNCING

With Us Today

WARM, SHOWERY WEATHER HERE

Wet snows are expected to continue throughout the week.

PLANE BUSY IN NORTHLAND

Jim Darwisch, Fort Rae, well-known northern trader, accompanied by his wife, arrived in Edmonton from Yellowknife on Tuesday morning.

He had been away from Yellowknife for 24 hours last week.

The overnight rains have made the dirt roads very bad and many cars were reported to be getting through without being stuck Thursday.

Absence of rain during the day will prevent new troubles arising as the highway is clear, it was believed.

Sections of the Jasper highway north of Yellowknife were unable to stand up under the pressure of the rain, and cars are being moved along the road by hand.

Cars are being pulled by teams, and it is reported that a motor road crew is being sent out to help fellow tourists to get out of the mire.

Rain was heavy at Two Hills, great at Calmar, slippery at Rockford Bridge, muddy at Rochester, Wainwright, Chipman, Colter, Payette, Savoy, Chapman, Colter, Mansville, Cherill and grey at Waskatenau.

QUEBEC URGED TO Forget Dissension

ST. HYACINTHE, Que. July 22 —Pls to French Canadians to forget dissension and to work together in their ranks, was made last night by Antonio Perrault, K.C., of Montreal, a Semaine Sociale gathering here.

Perrott voiced a diagnosis of any social unrest existing in Quebec, upholding federalism as the correct theory.

Police Court

Nick Farion, appearing for sentence following conviction on a charge of assault with intent to murder, was sentenced to pay \$200 each that he would remain in jail for two years. Failing to produce the bondsmen he will go to jail for six months.

If water contracted in freezing, like almost all other liquids, ice would sink in our ponds and lakes would freeze solid.

Great Development Noted In Northern Transport Circles

I Saw Today

Frank Elphicke talking over public questions with friends at the hotel building.

AND

Dorothy Pruss on Jasper west; Jay Lieberman in pleasant company at the Rialto theatre; Allan Dickson rounding the Back of Commerce in Jasper; and the weather was very wet on the main stem from 102 street.

Wilbur Pettit driving down the main street; Jack Vaughn near the intersection of Jasper and 104 street; W. St. John in Jasper; Radim King and Radim Queen, while not the central section of the city from the legislative buildings, 850 blocks doing likewise.

OPENING PICTURE

"When you add all this to airplanes which are as good as can be found anywhere in the world, and in competition with filers to equal in any in the world, you have a picture of the world's most complete system of modern transportation this year, will soon be as commonplace to go into the north," he said. "The Hudson's Bay Company is also stepping out and S.S. Distributors are moving up along the palatial lines of a Mississippi show boat with tiled decks, everything else."

While the whole tempo of Northern development has been this year, and Goldfields and the Lake Athabasca district are being rapidly developed as permanent gold camps, the Peace River country has assumed importance in the mining world of Canada. Most notable feature of the development in the opinion of James F. Thompson, president of the old-time northern transportation experts:

"There is no indication of what is going on in northern development in the transportation line. The Northern Transportation Corp. pays out \$1,000,000 on their system alone, and their new all-steel boats are an innovation in the field. The Hudson's Bay Company is also stepping out and S.S. Distributors are moving up along the palatial lines of a Mississippi show boat with tiled decks, everything else."

GOOD YIELD WILL BE HARVESTED PROVIDED MOISTURE RECEIVED SOON

Rain is badly needed in the Peace River country, but if it comes soon there are prospects of a bumper crop. The latest crop report of the Northern Alberta Railways for the week ending July 15, showed a record yield for the year, Thursday by authority of Mr. MacArthur, general manager.

Mr. Thompson, president of Thompson & Thompson Educational

Co., said: "We are looking forward to a good harvest this year."

Mr. Thompson said the crops are well along and the weather has been very dry.

PEACE RIVER CROP IN NEED OF MORE RAIN

James Cottine Thompson, chartered accountant. At present a citizen of Princeton, Wash., Mr. Thompson is a native of South Shields, Eng. Son of Mr. Thomas Thompson and Elizabeth Thompson.

Mr. Thompson educated at Ealing Grammar School, London, Eng. After Institute of Chartered Accountants, he became a member of the Royal Canadian Institute of Accountants, 1920, elected Fellow of same in 1922. Married on Oct. 21, 1922 to Constance Macmillan, daughter of Mr. and Mrs. Alexander Macmillan, of Edmonton.

Mr. Thompson has two sons, C. P. and Alan, and a daughter, Mrs. Alice Cole as a student prior to his association with James Cottine Thompson with whom he came to Alberta. Was with Tochon, Niven and Company, Vancouver, B.C., 1920, was a member of the provincial legislature 1921-22, auditor to the province of Alberta, he returned to business in 1923, and became a member of the Montreal branch of Clarkson Gordon, Dilworth and Nash, chartered accountants. Settled in Edmonton Regt. in 1925, and with Royal Air Force formerly Major and pilot, he became a member of the Edmonton Regt. Was secretary of Alberta Municipal Finance Commission, 1926-27, and a member of Alberta Police Pension Fund Liquidation Commission, 1931; member Alberta Awarded King's Jubilee medal in 1935. Religion, Anglican. Recreations, golf, tennis, swimming. Alberta Institute of Chartered Accountants (Prize 1930-31). Clubs, St. James, Montreal and Royal Montreal Golf Club. Church, Anglican. Bank of Toronto, Bank of Montreal, Toronto Ridge, Montreal.

Looking Them Over

By Jack Kelly

Fishy Business
Nate Enthuses
Tebo Victor

SHORTLY ago a gopher will snare and cover himself out a bank of enduring fame by deviving a way to avoid that sudden, sickening bump that winds up a vacation. You roll along merrily for a little while and then bang—you find yourself back at work again! If you have a gentle, sensitive nature, the shock is almost unbearable. Since all newspaper men have gentle, sensitive natures, we can imagine how it is to be a reporter a type of person in the face and wonder what the name of Allah is going to get past after page of nice little papers all cluttered up with little words.

After covering more of most likely streams and lakes in southern Alberta, British Columbia, Montana, northern Idaho and Washington, we beg to report that the trout have not been biting north foot for the past week or so. Rather, they have been biting south foot. They are not as active as prima donna and it is impossible to forecast what they will do next. Before this ink is dry they may be as voracious as wolves in the same lakes and streams where nothing at all would tempt them a few days ago.

Alas over most of the above mentioned area were probably the cases of the apparently most popular of all trout classes. At Waterton, Alberta, the Kananaskis Lake water is 12 miles back in the mountains. It is full of nice sized trout, but they won't rise to flies. You have to leave them on a troll. A Davis spinner is used—one of those imposing strings of bright hardware that reminds you of a brigadier-general's medals strung out on a length of halting wire.

It will catch trout all right, but it reduces the "play" to about the same destination as hauling up an anchor. I see the answer is a bobbing method. You will have to go well out a stream or a river, or a river with three or four short weights. This outfit was cast into a likely spot and allowed to sink slowly. After settling to the bottom it was left motionless for a minute, then brought to life with a series of little spasmodic jumps and finally pulled out to the surface.

The gopher generally stuck to the bait until he was getting the water. The idea seems to make the fish forget the taste of the water, sort of insect that had fallen into the lake and was going to get away again. It was left still on the bottom so that the lazy trout would have a chance to get a look at it and see just how good it was. It was then brought to life with little jerks to hold their attention. As it neared the surface the fish could not resist the temptation to pull it back even if they were not particularly hungry.

Hatcheries Boom Montana

THE only really worthwhile fly fishing I could find was in Montana on streams back in the foothills. The state has six fish hatcheries stocking these waters with the result that they become the mecca for anglers from all parts of the United States. Up on the plateau you can get three-pound cutthroat trout. The same is true of the fish until they are six or seven inches long at least before planting them.

In Idaho and Washington the streams are still packed from state hatcheries, but they were not taking flies last year. A few were being caught on spinners or with worms. Around Seattle the fishing is chiefly salmon and trout in Puget Sound. Like trout, the salmon have seasons, so fishing is limited to certain months. The seasons, however, are shorter and shorter on three trips with a raw host, oricker up the sound are almost certain to get you some nice salmon.

All though the fishing areas of southern Alberta and British Columbia the tourist business is completely shot according to residents. The chief causes are the terrible condition of the highways and lack of hatcheries to restock fishing waters. You don't see a quarter of the foreign car license plates in the province. The same is true of Alberta. Alberta is definitely becoming more and more with American tourists on account of the appalling condition of its highways—or the roads that pass under that name. All through Montana, Idaho and Washington every service station operator answers inquiries about Alberta roads with the statement that these are the worst roads in Canada. Knocking us for business reasons—they are simply basing on the information they get from tourists coming back to the states from Alberta.

McGuire Made Hit

IN Seattle I ran into Fred Osbourne and Mickey McGuire at Daley Drugstore. Alberta C. No. 3 is the only producer of the city of Chicago, New York and Los Angeles that is buying a clothing store and a profit at present. He is the man who promoted the Steele-Hisko tire and the recent Hisko-Risko battle. Daley told me that he figures Mickey has real title prospects, but needs several fights to get polished up.

If I had known earlier that Mickey would have been here for the Hisko-Risko card, I could have lined him in a side-room corner of a four-drink restaurant. "Had a rough night," he said. "I was in from Bellingham—a veteran who has been fighting 10-rounders for a long time. Mickey had him on the verge of a knockout once or twice though and might have got it if he had been longer back. Styer had enough ring craft however to hang on for the short one."

Mickey is making a name for himself now, and will be on the next fight card—the Hiskat versus Alton Mathews. Mathews is a clever, resourceful fighter that has a fine reputation on the coast. Everyone around Seattle is clamoring for a fight between Steele and Hisko and McGuire figures it will draw even better than the Steele-Risko bout. Hisko is a 20-year-old kid from Lethbridge. He is a fast youngster with a terrific left hook. Up until the summer he was working only in smaller places and not doing anything to write home about.

His manager is Eddie Marion, who once boxed here back in the days of Deacon White and Kit Scales. While Hisko was going through his gym drill, Marion piled me with questions about old acquaintances in Edmonton. About nearly 30 years ago that was up here, yet he remembered a dozen names of people I had never heard of in my life on the streets. He is in the money now with Hiskat and almost certain to clean up a tidy fortune in the next couple of years. He has taken a deep interest in Mickey McGuire and is convinced that he is going to go places.

Tebo Wins First Start

LAST night mail brought a letter from Dr. Aiden of Minneapolis who is handling Jack Tebo just now for Jack Carrigan. He tells me that Tebo fought his first fight of his current campaign the other day against Peter Ferrer and won an eight-round decision. The fight was at Emmett's, Iowa, with the referee being in the shade. Ferrer is a colored fighter and a two-fisted puncher. Tebo was good enough to go six grueling rounds recently with John Henry Lewis, the light-heavyweight champion.

Allen says that Tebo's next opponent will be Harry Jones who lost a close decision to Eddie Wenzel at Sioux City.

"Tebo is anxious to meet Wenzel in Canada as soon as he has a few more fights to correct his timing and distance," the doctor writes. "We will take care of a change of venue through your columns. We feel that Tebo is a real prize fighter and would be in a position to be an outstanding heavyweight contender, and will consider a match with Wenzel as soon as it is agreeable to the promoters."

Packers Win

Bert Tona's Canada Packers, contenders for provincial girls' senior honours, took a one-sided 12-1 victory over the Victoria Girls last night in a game played at Victoria. The West End team is entered in intermediate provincial playdowns.

Cincinnatus Heine Miller was the real name of the poet, Joaquin Miller.

CUBS LENGTHEN LEAD OVER GIANTS

SPORTS BULLETIN

Mr. Watt Showing 'Em What's Watt

Lengths in the lead, Mr. Watt, 3-year-old harness racer, romps to an easy victory in the Tuxedo Stakes at Goshen, N.Y., setting a world record of 22 feet for the mile on a half-mile track. He proved it in no fluke

by doing the third best in the same time. Yet last January he was so lightly regarded that his owners failed to post entry money for the Hambletonian, the "derry" of harness racing.

Deaths

MR. JOSEPH T. O'LEARY

26 June, 1868—21 Oct., 1937, Aila,

passed away in the city Sunday,

July 18, at the age of 69 years. He

was born in Ireland and his wife

and two children in Serbia

The funeral will be held Friday

morning at the home of Mr. and Mrs.

John J. & Son's funeral chapel, Rev.

P. J. P. Mulligan officiating. The

service will take place in the Beech-

wood Cemetery. Hammon & Son

funeral directors.

MR. WILFRED JAMES GAGNON

The death occurred at Chisholm, Alta.

Age 40. Son of Mr. and Mrs.

W. R. Gagnon. He leaves to mourn

his loss his wife, one son, his mother,

one sister, Mary Anne. The

funeral will be held Friday

afternoons at the home of Mr. and

Mrs. Gagnon's funeral home, 102 St.

McKinley. Funeral directors.

Funerals

MRS. SARAH PRUDENCE CARSWELL

The funeral service of Mrs. Sarah

Prudence Carswell, 102 St. and 106 Ave.,

wife of the late John Carswell,

who passed away in the city Monday,

July 17, was held Wednesday afternoon

at 3:30 o'clock at Andrews Brothers

private chapel, corner 102 St. and 112

St. John's. Mr. and Mrs. Andrew Brothers

officiated and entombed took place

at the cemetery. The service

of H. F. Peavy, W. H. Reed & Mitchell

McKinley & Son's funeral directors

attended. Andrew Brothers

funeral directors.

RONALD EDWARD BISHOP

The funeral service of Mr. Ronald

Edward Bishop, 11-year-old son

and only child of Mr. and Mrs.

Bishop of Arrowswood, Alta., who

passed away in the city Monday,

July 17, was held Wednesday afternoon

at 3:30 o'clock at Andrews Brothers

private chapel, corner 102 St. and 112

St. John's. Mr. and Mrs. Andrew Brothers

officiated and entombed took place

at the cemetery. The service

of H. F. Peavy, W. H. Reed & Mitchell

McKinley & Son's funeral directors

attended. Andrew Brothers

funeral directors.

In Memoriam

TWEEDSMUIR WAVES GOODBYE AS SHIP SAILS

Vice-Regal Party Leaves For Long Trip Beyond Arctic Circle

FORT McMURRAY, July 22.—Lord Tweedsmuir and his northern party left this jumping-off place last night on their long planned trip beyond the Arctic circle.

His Excellency bade good bye at the wharf. Lady Tweedsmuir, their Hon. Minister, Mrs. Mrs. George Page, Lady-in-waiting, and Captain G. C. Campbell, who stood waving from the pier as the snow covered ship slowly moved away, was shoved downstream by its tug.

Just before the ship departed to 500 miles north, it crossed the stream. Their Excellencies attended a garden party given to them outside the LODGE at McMurray.

INDIAN GIFTS

They then received gifts from Chief Harry Yellowhead, of the McMurray band of the Cree Indians.

Large tents visited industrial and trading firms at Waterways, end-of-point and were driven over to the port of McMurray, where banks where the Abasand Oil Limited are erecting a plant to extract gasoline and other products from the ground.

The Governor General met Con Fraser, operator-for-trader of Fort Chipewyan, who has been in the north for 45 years, and chatted with him.

They walked through a fish packing plant, the Canadian Pacific and the headquarters of the Northern Transportation Company, a Macmillan-owned company which handles great quantities of radium ore from Great Bear lake.

HITLER HOLDS OLIVE BRANCH TO RUSSIAN

Uses Word Non-Intervention in Greeting Envoy From Moscow

BERLIN, July 22.—Chancellor Hitler gave diplomats something to think about today when he received the new Soviet Ambassador at his office. He was in no mood, in the course of the exchange of greetings, used the word "non-intervention."

He observed between Germany and Russia would correspond not only to the requirements of non-intervention, "today more pressing than ever," but also to the requirements of non-intervention.

(Germany recognizes the insurgents Spanish administration; the USSR favors the Valencia government.)

WITH A DOVE

Said one diplomat commenting on Hitler's gesture: "It is a dove with an olive branch, it's an olive branch with a dove sitting on it."

Some diplomats thought they would not attach great importance to Hitler's action until they are sure what was meant by non-intervention.

FEACE GESTURE

In some quarters that was interpreted as an important peace gesture, in others as a mere courtesy. Hitler often has expressed a pronounced dislike and which has been to force the German Foreign Office in session of the international committee for non-intervention.

(Germany recognizes the insurgents Spanish administration; the USSR favors the Valencia government.)

BRITISH SLOOP ORDERED INTO ARCTIC WATERS

MONTRÉAL, July 22.—The sleek grey man-of-war, H.M.S. Scarcborough, attached to the Bermudas, was ordered to the Arctic waters under Captain F. R. Baxton's command.

From British naval craft to sail

the North Pole, the time the

Scarcborough will follow a route similar to one the Bear, a sealing

ship, Hudson Bay Company

trading ship, Nascopie and likely

will meet with Churchill's Northern

Maritime sealers south of the lake.

After spending a month or two in a half in northern seas, the sloop will return to her Bermuda base.

Edmonton Girl Weds Man in Bellingham

BELLINGHAM, Wash., July 22.—A marriage license was issued to Bernice Lorraine, 26, Vancouver, B.C., and Young Deutzenbach, 25, of Edmonton.
